

Faculty of Engineering Student Fora 2010-11

All Faculties have set up student fora to ensure that there is a consistent approach to student representation at Faculty level across the University. The student fora are informal meetings of student representatives and faculty officers and provide an opportunity

- to consider the student perspective on Faculty-wide issues/initiatives
- to raise faculty-wide student issues of concern
- to raise unresolved issues from departmental staff-student committees

Student representatives for Faculty committees will be elected from the student fora.

The Faculty of Engineering have 2 student fora. Both will meet three times per year.
